5. Old Business:
 - The website had to be restructured as the site would not allow PayPal unless we paid an extra \$300.00 a year. We left Wordpress as our server host and our new website now only costs us about \$18.00 plus a \$20.00 hosting fee a compared to what would normally have cost us \$220.00 a year.
 - We had a good turnout for the inaugural Ground Hog Day Fun Tourney and everyone seemed to have fun. Next year, the games will last longer. I had to step in and play at the last minute due to drop outs, mistake made in totals and had to restart the finals.

- We were to have a meeting with Don Stewart from North Cowichan to give our view on what we would like to see in regards to pickleball in the area, and to present an updated version of Rick Hollingworth's Power Point Presentation as reinforcement to the strength, popularity and the financial impact of pickleball in the area. However it never got off the ground due to COVID-19.

- We have been getting blowback about donating money to Ken Holman's website due to potential profit. Clarification needed on which tournaments the \$0.50 per player charge will be applied to. A motion was made by Rand Granbois to revote in a poll as to whether it will apply to all tournaments or just the Vancouver Island Pickleball Championships. The result passed in favor of just applying the fee to the Vancouver Island Pickleball Championship.

6. New Business:

- The Vancouver Island Pickleball Championships have been cancelled due to COVID-19.

- Laurie Vasey gave a talk on the new South Cowichan Pickleball Club which and garnering large support. They have had communications with the Regional District to have new pickleball courts built in the south end, but have yet to get a response. We agreed we should coordinate our efforts in regards to the CVRD.
